Team 270 Hearthstone GUI

Start Menu

Pressing the **Start** button will take you to the game and pressing the **Quit** button will close the game

Game Menu

Player 1: Player 1 is always at the bottom half of the screen, you have to choose one of the 5 heroes then press the **Ready** button.

Player 2: Player 2 is always at the top half of the screen, you have to choose one of the 5 heroes then press the **Ready** button.

When the 2 players choose their heroes and press the ready button press the **Start** button to start the game. The current and opponent heros are assigned randomly to player 1 and 2.

In game instructions

Details

1. **Hero information:** Each hero has their information displayed in the white text area, the text area includes the hero's **Current HP** and **Current Mana Crystals**, it also indicates whether it's your turn or not. The hero has a hero power button as well as a button that indicates the number of cards left in the hero's deck.
2. **Minion Information:** Each minion has their information visible on the card (it only indicates the initial stats of the minion), in order to view detailed information about a specific minion you have to hover the mouse over the minion, this action will display the minion's **Name**, **Rarity**, **Mana cost**, **Attack**, and other information such as if the minion is **Taunt**, **Divine Shield** and **Charge**.
3. **End Turn:** To end your turn an **END TURN** button is visible at your half of the screen when it's your turn, by pressing this button your turn ends.

4. **Playing a Minion:** To play a minion all you have to do is press on the minion you want to play from your hand and it will be added to your field.

5. **Minion Attack:** To attack using a Minion you have to press on the minion that you want to attack with from your field, then you will have to choose your target:

- If your target is [a Minion](#) you have to press on that minion and then press on the **Confirm Target** button.
- If your target is [a Hero](#) then press on the opponent hero and then press on the **Confirm Target** button.

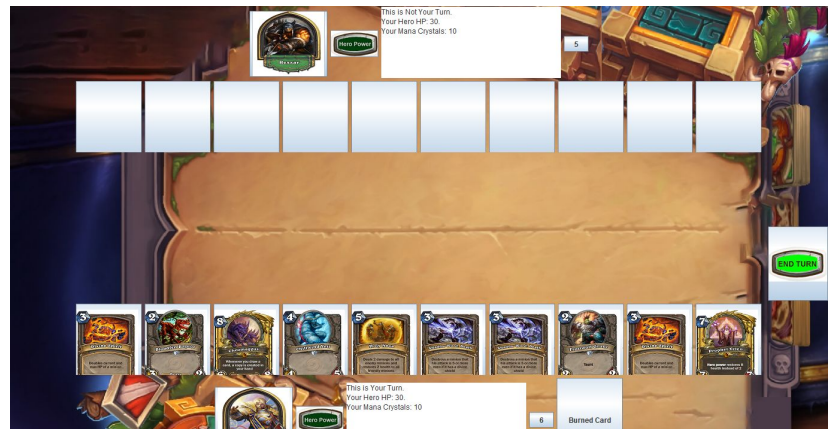

6. **Hero Power:** To use your hero power press on the **Hero Power** button:

- If your hero is a **Priest** or a **Mage** after pressing the **Hero Power** button you will have to choose the target you want to attack then press the **Confirm Target** button.
- If your hero is a **Warlock**, **Hunter** or **Paladin** after pressing the **Hero Power** button their hero power will be used automatically.

7. **Cast Spell:** You can cast a spell by pressing on the spell card in your hand

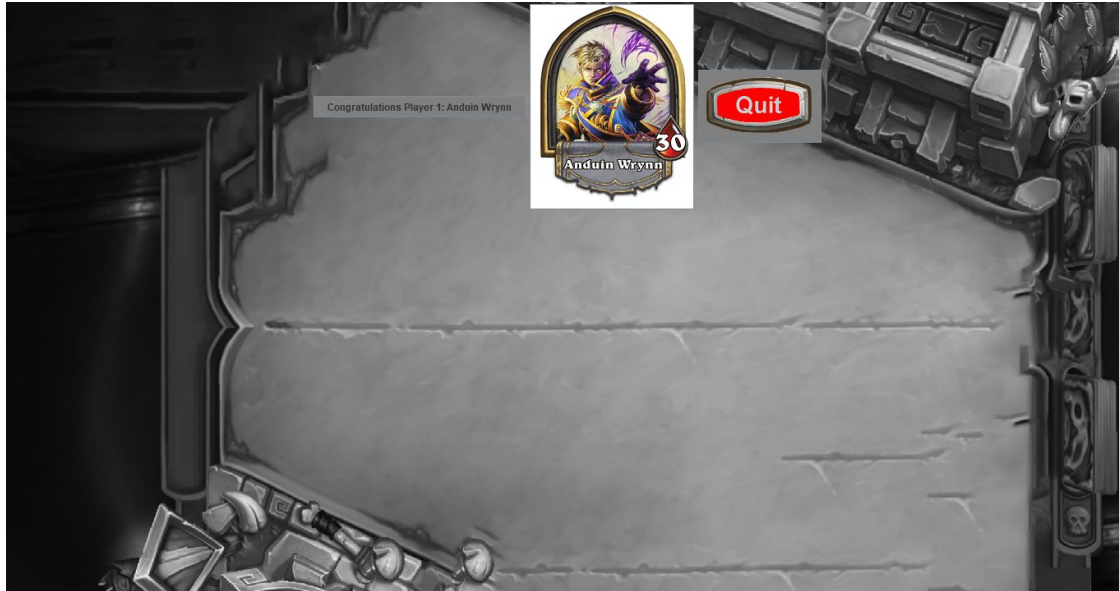

- Some spells require a target to be chosen (e.g. **Kill Command** and **Polymorph**) in this case you will choose the target you wish to cast that spell on, then press the **Confirm Target** button.
- Spells that don't require a target as soon as you press on the spell card in your hand the spell will be cast automatically.

8. **Burned Card:** If your hand is full a **Burned Card** button will appear beside the small button that indicates the number of cards remaining in your deck, if you hover over the burned card button you will get the information of this card.

Game Over

When a player wins the following screen will appear with a picture of the winner, to close the game press on the **Quit** button.

HAPPY GAMING!
